NEW JERSEY STATE DATA CENTER

NJSDC

NEW JERSEY STATE DATA CENTER

NJSDC

- Cooperative project of the State of New Jersey and the U.S. Bureau of the Census serving data users in the public, private, and academic sectors since 1980.
- Each state has an SDC acting as secondary distributors of Census data providing value added products and expertise for their respective state
- The NJSDC maintains a data dissemination network of over 110 state, county, regional, and local agencies.
  - Includes:
    - All 21 county planning boards
    - Metropolitan Planning Organizations – DVRPC, NJTPA
    - Representatives from 19 State Departments/Agencies
    - Federal Depository Libraries including the New Jersey State Library, Rutgers and Princeton University Libraries

POPULATION CHANGE | POPULATION DENSITY | APPORTIONMENT

FULL SCREEN

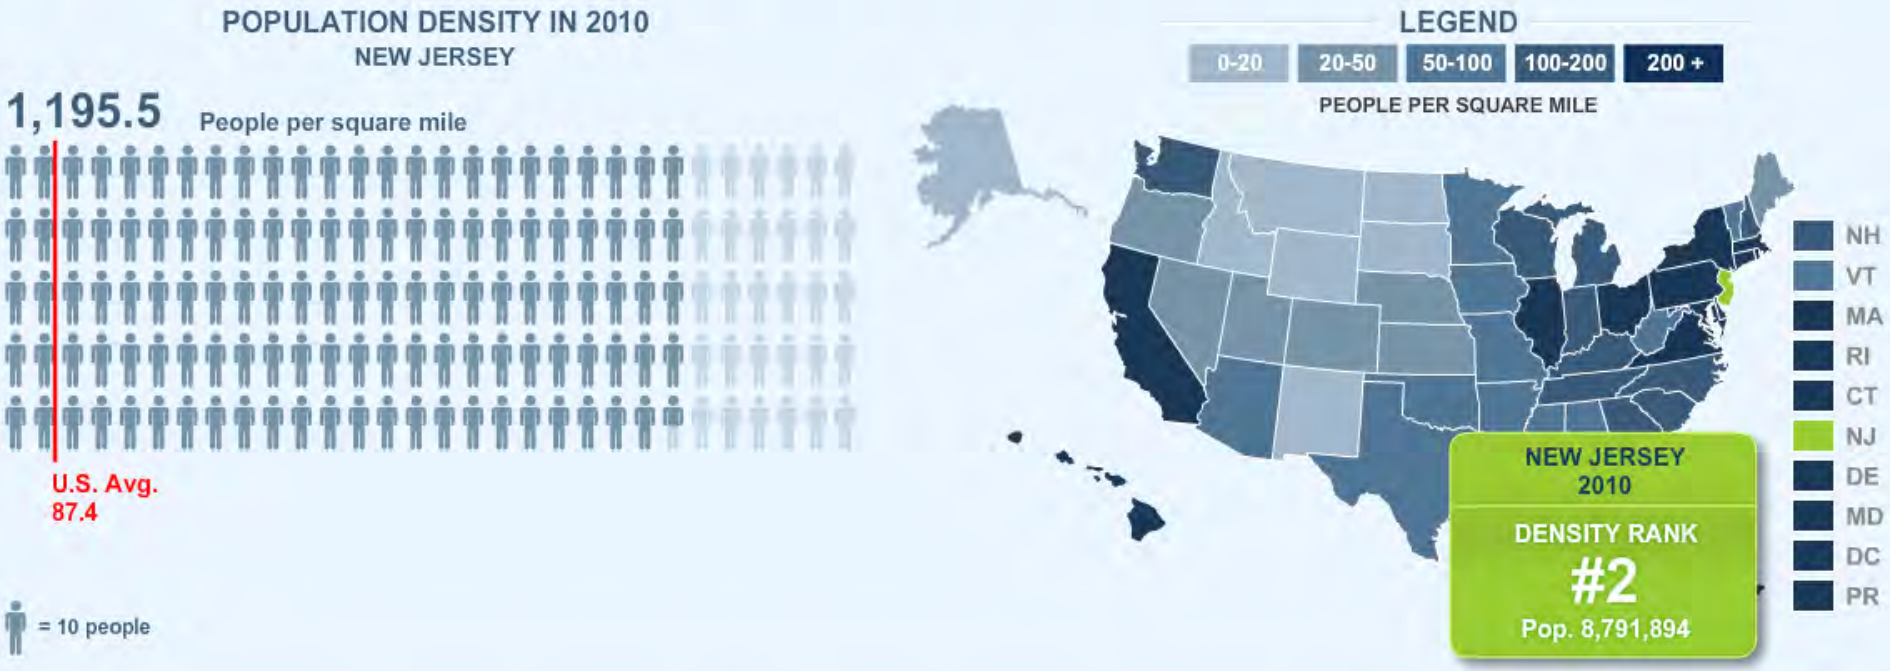
Population Density

Population density is a measure of average population per square mile. Density levels have been higher across the Eastern seaboard and the Pacific coastline and lower in much of the West.



Choose a Decennial Census Year: 1910 | 1920 | 1930 | 1940 | 1950 | 1960 | 1970 | 1980 | 1990 | 2000 | 2010

See footnotes below

When included in the ranking, the District of Columbia ranks first in density (9,856.5 people per square mile), however among the 50 states NJ ranks first in density.
